Consent Tracking Form (CONS)
Version 04/01/16

1. Reformat form so that data is collected in table format. This will allow form to stay to one page after addition of new questions. Renumber all questions for new format.
2. Add Question A11: "Geocoding" consent indicator. Staff will indicate YES/NO in A11a as to whether Geocoding consent is available for the current visit. Staff will indicate CONSENTED/DID NOT CONSENT in A11b if Geocoding consent is available for the current visit.
