SECTION C

PROMPT: Administer the entire *F22HX (Follow-Up Health History)* and *F22MED (Medication History)* to the participant. Complete an *Ascertainment Tracking Checklist (ATC)* for all AIDS-defining illnesses and biopsies the participant self reports. An *Antiretroviral Dosage Form (DSG)* should be completed if the participant reports use of any antiretroviral medications on *F22MED*. In addition, a *Drug Form 1* should be completed for each anti-retroviral medication the participant reports she is currently taking. No *Drug Form 2s* or *Drug Form 3s* need be completed for the Abbreviated Visit.

If the abbreviated visit interview is conducted by telephone and the participant will not be seen for exams/specimen collection, then a *Medical Record Release* form should be mailed to the participant along with a self-addressed stamped envelope. Abstraction cannot be performed without the participant's signed consent.

PROMPT: If the visit is conducted in person and the participant is willing and able, have the phlebotomist/clinician collect a urine specimen, draw blood and perform the physical and gynecological examinations.

If the visit is conducted via telephone, ask if the participant would be willing to come in to the clinic or be visited at her home to have specimens collected and/or exams performed.

PROMPT: After administration of *F22HX (Follow-Up Health History)*, *F22 MED (Medication History)*, *Antiretroviral Dosage Form (DSG)* and *Drug Form 1* (if applicable) is complete, schedule the participant's next core visit, if it is feasible.
