

**Laboratory Pap Smear Form (C60)**  
**Version 04/01/11**

1. Delete “slide number” from form.
2. Add box to top of form for laboratory use only.
3. Question A4: Add SPECIFY field to be completed for reason specimen was inadequate.
4. Add new Question A5: “Endocervical component.”
5. Add table to bottom of form for laboratory use only.
6. Question A12a (changes underlined): Modify question to ask about “presence of endometrial cells in postmenopausal woman ≥ 40YO.”
