

**DRUG1 – Visit 21 Changes**  
**Version 10/1/04**

1. Delete option to select whether form is completed for “WIHS Core Visit” vs. “3 Month VRS Visit.” Three-month VRS visits are no longer completed.
2. Add new ART: Truvada, drug code = 253. Truvada is taken as one pill, once per day, and consists of 300 mg tenofovir plus 200 mg emtricitabine.
3. Add new ART: Epzicom, drug code = 254. Epzicom is taken as one pill, once per day, and consists of 600 mg abacavir plus 300 mg lamivudine.
4. Add three new response categories to question 1C: prescription changes by physician (7), I’m having a baby (8), resistance to other medications (9).
