

Antiretroviral Dosage Form (DSG)
Version: 10/2/05h

1. Add Spanish translation of Prompt at bottom of page 1 of form: “*A medication you have taken in the past three days includes any you have taken at least one time today, yesterday or the day before yesterday.*” As this is the only portion of the form needing Spanish translation, there will not be a separate Spanish version of the form; however, both English and Spanish translations of the Prompt are now given on the English version of the form.
