

Antiretroviral Dosage Form (DSGs1)
Version 10/01/15

1. Change prompt on F22MED form to indicate that DSGs1 form (not DSG) should be completed if participant reports having taken any ARV medications since her last study visit in Question B2b.
2. F22MEDs3 will still be completed. Link remains in Apollo for this subform.
3. Delete Apollo links to DSG and DRUG1 forms in F22MED. DSGs1 link will replace DSG link in Apollo.
4. Remove instructions from DSG form and keep only subform DSGs1. DSG instructions will be moved to QxQs and new Response Card DSG1.
5. DSGs1 form will be data entered after F22MED, Question B2c. One DSGs1 (Questions #1 through #9) should be completed and entered for each antiretroviral medication the participant reports taking since her last study visit.
6. Move remaining DRUG1 questions to DSGs1 form. Discontinue administration of separate DRUG1 form.
