

**F22HX – Visit 20 Changes**  
**Version 4/1/04**

1. QxQs only: Add note that VRS visits are not being performed during visit 20, thus all forms should be completed for “WIHS core visit.”
2. Question B9: Add option to answer “NA” to question regarding whether body changes were caused by a change in HIV medications. Circle “NA” if participant is HIV-negative, or HIV-positive but not on ART.
3. Question C30: Deleted “Not including the test you had for this study,” as TB tests are no longer administered as part of the WIHS visit.
4. Question C34b – C34d: Changed stem question to ask about a “new diagnosis” of any of the listed conditions. Form now matches instructions in QxQs.
5. QxQs only: Corrected prompts for ascertainment of liver disease events.
6. QxQs only: Fixed skip pattern for question C35.
7. QxQs only: Fixed skip pattern for question C36b.
8. QxQs only: Fixed skip pattern for question C38.
9. QxQs only: Fixed skip pattern for question C38c.
10. QxQs only: Fixed skip pattern for question C40.
11. Spanish version only: Corrected skip pattern for when question C38 = no. In this case, skip to question C39.
12. Changed stem question for C42 to, “Since your (MONTH) study visit, has a health care provider told you that you had...” This was done because stroke and TIA are not heart problems.
13. ATC will no longer be generated for question C42a, new diagnosis of angina.
14. Added question C42ai, “Were you hospitalized for angina or chest pain due to heart disease?” ATC for code 334 will be generated if this question is “yes.”
15. ATC will no longer be generated for question C42b, new diagnosis of congestive heart failure.
16. Added question C42bi, “Were you hospitalized for congestive heart failure?” ATC for code 332 will be generated if this question is “yes.”
17. Deleted question C43, “Have you had any blood vessels that have been blocked or closed?”
18. Deleted question C43a, “In what year?”
19. Question C44: Changed question from “Ever” to “Since your (MONTH) study visit.” Added probe: “Your doctor may have called this: cardiac catheterization, percutaneous revascularization, PTCA, angioplasty, stenting, carotid endarterectomy, surgical revascularization, CABG, or coronary artery bypass grafting.”

20. Deleted question C44aii, "In what year?"
21. ATC will no longer be generated for question C44b, procedure or surgery done on other vessels.
22. Deleted question C44bii, "In what year?"
23. Spanish version only: Translated question C45 to Spanish.
24. Changed prompt after question C45 to reflect new ascertainment instructions for cardiovascular protocol.
