

**WIHS Form 22 HX: Follow-up Health History**  
**Version: 04/01/09**

The purpose of the F22 HX is to gather information on the health history of the participant. Changes to this form include:

1. Delete column in Question B12 that asks, "*Was this change mild, moderate or severe.*"
2. Add "*or a blood test*" to Question C21.
3. Add "*or a blood*" to Question C21a.
4. Delete "*Has a health care provider recommended that you receive a liver biopsy?*" and add "*Have you had a liver biopsy for any reason?*" in Question C38.
5. Add new skip pattern "C39" to Question C38 if participant answers "NO."
6. Add new Question 38a, "*Why did you have the liver biopsy?*"
7. Delete Questions 38b, 38c, 38e, and 38g.
8. Delete the prompt between Questions 38c and 38e.
9. Delete the prompt after Question 38g.
10. Add prompt before Question 39, "*PROMPT: If C38=YES, THEN COMPLETE ASCERTAINMENT TRACKING CHECKLIST AND OBTAIN MEDICAL RECORD RELEASE.*"
11. Add "*especially those with HIV, can*" in the instructions after Question E0 and delete "*These diseases are rare and may occur in women who are HIV negative; however, they tend to occur more often in HIV positive women. As I read this list of diseases, please let me know whether or not you have had any of them.*"
12. Add parentheses around "*Since your (MONTH) study visit*" in Questions E2-E7.
