

Follow-up Health History (F22HX)
Version 10/01/12

1. Delete old **Question C31f**: “*Have you had any of the following conditions, since your (MONTH) study visit? Lupus or rheumatoid arthritis or any rheumatologic disease.*” This question did not collect specific enough data and has been replaced by a new form, *ADF*, with questions specific to Lupus, Sjogren’s syndrome, Multiple Sclerosis (MS), Graves disease (high thyroid hormone), and Hashimoto’s thyroiditis (low thyroid hormone). *ADF* will be administered after *F22HX*.
2. Add new **Question C33a2iv**: “*Other*” and SPECIFY field to record how the hip fracture occurred.
3. Add new **Question C33b2iv**: “*Other*” and SPECIFY field to record how the wrist fracture occurred.
4. Add new **Question C33c2iv**: “*Other*” and SPECIFY field to record how the spine fracture occurred.
5. Add new **Question C33d2iv**: “*Other*” and SPECIFY field to record how the fracture of any other bone occurred.
