Follow-up Health History (F22HX)
Version 04/01/13

1. Question A6: Change question to "date form last administered." In most cases, this will be the date of the last core visit; however, if the last visit was abbreviated, then this date will be the date of the abbreviated visit.
2. Add new Question C12: "lung cancer." A "yes" response to this question will result in the creation of an ATC record for disease code 113.
3. Question C42: Discontinue creation of an ATC record for a "yes" response to subquestions ai, bi, c, d, and e.
4. Question C44a: Discontinue creation of an ATC record for a "yes" response to this question.
5. Questions E4 through E20: Discontinue creation of an ATC record for a "yes" response to these questions.
