19. Question C17b: Add skip pattern so that questions C17b and C17c are completed at odd-numbered visits only.
20. Section D: Restructure so that questions regarding sexual behavior are asked once in reference to all participant’s male partners, rather than multiple times in

reference to each male partner. Subform F24s1 will be discontinued and all sex behavior questions moved to F24.

21. Delete questions D2, D3, D3a and D4.
22. Retain D5a, D5b, D6a, D6b, D7a, D7b, D8a, and D8b, but reword so that they are applicable to all males with whom participant has had sex since her last study visit.
23. Retain D9a, D9b and D10, but change response categories (all, some, none of my partners) so they are applicable to all males with whom participant has had sex since her last study visit.
