

Specimens Collected During the Physical Exam – New Recruits (F31r)
Version: 10/01/10a

1. Add note for Question B4: *“Sample can be kept at room temperature for local tests conducted within four to six hours. Otherwise keep sample at 4°C until processing.”*
2. Section C: Beginning with visit 34, hair specimens will be collected from ALL HIV-positive women. Amend note on form to indicate that a specimen should be collected unless the participant is HIV-negative.
3. Add prompt to complete form F31a if participant provided a hair sample.
4. Add note after Question D2a: *“If CVL will not be processed within one hour of collection, keep sample at less than 10°C to prevent microbial growth.”*
