

MS01 – visit 22
Version 04/01/05

1. Question A6a: Add two new ART drug codes to range:
 - a. 255: TMC-125 (NNRTI)
 - b. 256: TMC-114 (PI)
2. Question A9: Change to ask about any medications the participant has taken in the “last three days” vs. the morning of the OGTT.
3. Question A10 (subform MS01s2): Change to ask participant to name each medication she has taken in the “last three days” vs. the morning of the OGTT.
4. Add question A10b: Date participant last took medication.
5. Renumber old questions A10b – A10d to A10c – A10e.
6. Question B4: Specimen collected for insulin assay will also be used to perform a lipid assay at Quest Diagnostics.
7. Add Question B5: Specimen collection for NMR Lipoprofile. 5 ml will be collected in a purple-yellow EDTA tube and shipped to Liposciences, Inc., as per the WIHS Manual of Operations, Section 25.
8. Change question number of old B5 to B6.
9. Revise prompt at end of form to read: “After processing, samples for insulin, glucose and lipids will be batched and then shipped to Quest Diagnostics. Samples for NMR lipoprotein will be shipped to Liposciences, Inc. See the WIHS Manual of Operations, Section 25, for instructions on processing and shipping.”
