

MS01 – visit 23
Version 04/01/05b

1. Update name for tipranavir: “Aptivus (tipranavir, PNU-140690).”
2. Revise skip patterns for questions A2 and A5. All participants will have specimens collected for lipid panel and NMR lipoprotein; however, if the response to either A2 or A5 “yes,” OGTT will not be performed.
3. Add prompt/skip pattern after question B2 for participants with A2 or A5 = 1.
4. Add prompt/skip pattern after question B5 for participants with A2 or A5 = 1.
