

MSSCR – visit 22 changes

Version 04/01/05

1. Add question A4: “Is the participant taking growth hormones?” If answer is “yes,” participant is excluded from participation in the substudy.
2. Renumber old questions A4 – A7 to A5 – A8.

Version 04/01/05a

3. Change question A2: From “Is the participant pregnant?” To “Has the participant been pregnant or breastfeeding in the past 6 months?”
4. Change question A3: From “Is the participant taking hormones including estrogen, oral contraceptives?” To “Has the participant taken exogenous female hormone therapy (including estrogen, progesterone, birth control pills, Norplant, Depo Provera, birth control patch or hormone replacement therapy for menopause) in the past 12 months?”
5. Change question A4: From “Is the participant taking growth hormones?” To “Has the participant taken growth hormones or steroids on a regular basis in the past 12 months?”
