
SMOKING, ALCOHOL AND DRUG USE
Chronic Kidney Disease in Children (CKiD)

SECTION A: GENERAL INFORMATION

A2. CKiD STUDY VISIT #:

A3. FORM VERSION:

10/01/14

A4. DATE OF VISIT:

This form is to be completed by children, 12 years old or older, who are enrolled in CKiD.

INTRODUCTION TO PARTICIPANT:

Thank you for participating in this study.

This questionnaire should take about 5 to 10 minutes. Please read each question carefully. Take as much time as you need to answer each question and be as accurate as possible. As with all study information, your answers will be kept private. No one will know who filled out the questionnaire because there is only a code number at the top, not your name. Even your parents and your doctor will not see your answers. Please answer all questions honestly. Your answers are for research purposes only and may help doctors find better ways to treat children with kidney problems. If you have trouble reading or understanding a question, please ask the nurse/coordinator for assistance and she/he will be happy to help.

Questions begin on the next page. For each question, choose the option that best matches the answer. When you have completed the form, please return it to the nurse/coordinator.

SECTION B

B1. Have you ever smoked tobacco (e.g. a whole cigarette, cigar, cigarillo or, little cigar)?

- Yes
 No

a. How old were you when you smoked tobacco for the first time?

(years of age)
