*Pregnancy Tests: Pregnancy tests will be performed on females of child bearing potential or in accordance with local institutional guideline and policies. Childbearing potential occurs when the female has reached menarche.

V1a Visit serves as the anchor for subsequent due dates

V1b visit should be completed within 6 months of the V1a (could be done the day after or up to 6 months after V1a)

Any activities not completed at the V1a may be completed at or before the V1b visit if needed.

Any activities not completed at the V1b visit may be completed anytime within 3 months of the V1b visit.
