Eligible eGFR measurement based on U25eGFR Calculator

For eligibility, individuals must be ≥ 16 to <23 years old with an eGFR <60 ml/min $|1.73m^2$. Use the U25eGFR calculator to calculate estimated GFR measurements based on the individual's SCr and height measurements.

Do not enter cystatin C results.

The calculator derived from Pierce CB, Munoz A, Ng DK, et al.. Kidney Int 2021 Apr;99(4):948-956. PMID: 33301749

To access U25eGFR calculator,

go to <u>https://kidney.wiki/gfr-calculator/</u> Enter age, sex, height (in cm), and serum creatinine (in mg/dL).
