**Section 1: Word Reading**

*Examiner instructions.* **Be prepared** by knowing the correct pronunciation of each word. See the NP protocol folder in the MACS V62 forum for pronunciation word links and the word list. Only when you are ready to begin the test, hand the participant the word list. Allow 10 seconds for the participant to respond to each word. If there is no response after 10 seconds, say, **“OK, try the next one.”** If you did not hear a word clearly, say **“I could not hear you clearly. Please say the word again just as you did the first time.”**

IF THE PARTICIPANT ANSWERS 10 CONSECUTIVE WORDS INCORRECTLY, SKIP TO WORDS 56-58. ASK THE PARTICIPANT TO READ THESE 3 WORDS AND THEN STOP.

If the participant does not answer at least 5 items correctly, administer Letter Reading (Section 2 on the next page). Otherwise, give him credit for correctly completing all 15 letters from Letter Reading.

*Participant instructions.* **“Look at each of these words carefully. Read the words across the page so I can hear you. When you finish the first line, go right on to the second line, and so on down the page until you finish or I tell you to stop. Read slowly and say the words clearly.”**

*Scoring instructions.* Mark 1 for each word the participant read correctly. Mark 0 for each word the participant did not read correctly. Leave any remaining unread words blank. Sum each column score and fill score in the column’s respective **SUBTOTAL** box (subtotal should not exceed the maximum). Submit subtotals to CAMACS in F07.data – see codebook.

Section 2: Letter Reading (administer only if the participant does not get at least 5 items correct in Section 1, Word Reading). Otherwise, give the participant full credit for completing all 15 letters. **“ I want you to look at the letters on this line”**. (Point to letters on the top row of the card). **“Read to me the letters one-by-one across the line.”**

*Scoring instructions.*

Letter Reading score = 15 if participant read 5 or more words from Section 1 (on the previous page) correctly. If not, mark 1 for each letter read correctly, 0 for each letter read incorrectly. Sum the three column SUBTOTAL scores to calculate the total letter score.

1	A			6	R			11	I		
2	B			7	T			12	V		
3	O			8	H			13	Z		
4	S			9	U			14	J		
5	E			10	P			15	Q		
	SUBTOTAL				SUBTOTAL				SUBTOTAL		

**TOTAL LETTER READING SCORE:** \_\_\_\_\_ (Score = 15 if the participant read 5 or more words from Section 1) correctly.
