

WOMEN'S INTERAGENCY HIV STUDY
QUESTION BY QUESTION SPECIFICATIONS
DRUG FORM 2: NON-ANTIVIRAL MEDICATIONS

General Instructions:

1. A *Drug Form 2* should be completed for each medication a participant lists in **Questions C1a, C1b and C1c on Form 22MED**. Therefore, if a participant is or has been (since last visit) on two non-antiviral medications, the interviewer should fill out two *Drug Form 2's* for that participant. To indicate to which specific drug a particular *Drug Form 2* refers, the interviewer should check off ONE of the boxes listed on the front page for each form completed.
2. Starting at visit 20, interviewers are prompted to record the manner in which medications are reported.
3. When reading the questions, insert the actual drug name where it says (DRUG). Insert the date of the participant's **last completed core visit** where it says (MONTH).
4. Interviewers should ignore the numbers in italics listed next to the check boxes at the beginning of the form. These numbers are for data entry purposes only.
5. All questions refer to the period since the participant's last visit.
6. No *Drug Form 2's* should be filled out for antiretroviral medications (record in F22MED Question B2a; complete Drug Form 1), for hepatitis medications (record in F22MED Question D1a; complete Drug Form 3), for complementary/alternative therapies (record in F22MED Question F1b), or for other prescribed medications (record in specify boxes in F22MED Question E10).

Question 2: For each indication (a–e), circle the code for either “YES” or “NO.” If participant reports use for an “other condition,” circle “YES” for 2f, and record name of condition in specify field.

Question 4: Hand the participant **RESPONSE CARD E1**. This question tries to capture the duration of medication use since the last visit to the best of the participant's recollection. If the participant says that she cannot remember, assure her that her answer does not have to be exact and you are just looking for her best guess as to the duration of her drug use since her last visit.

Question 5: Mark only one response.
