

**Follow-up Health History (F22HX)**  
**Version 04/01/2014**

1. Renumber old Question C31 to C23.
2. Add new Question C24: *“Are you afraid of falling?”*
3. Add new Question C25: *“Have you had a fall since your (MONTH) study visit? By a fall, we mean an unexpected event, including a skip or trip, in which you lost your balance and landed on the floor, ground or lower level, or hit an object like a table or chair. Falls that result from a major medical event (for example, a stroke or seizure) or an overwhelming external hazard (for example, being hit by a truck or pushed), should not be included.”*
4. Add new Question C26: *“How many falls have you had since your (MONTH) study visit?”*
5. Add new Question C27: *“Did you seek medical attention after any of these falls (such as going to the emergency room or to a doctor’s office)? Respond “NO” if you did not actually see a medical provider because of the fall, but rather sought informal advice from a friend, neighbor, or relative, or communicated with a medical provider by phone or other means (for example, email) without a face-to-face encounter.”*
6. Add new Question C28: *“Did any of these falls result in a broken bone?”*
7. Question C47: Revise to ask, *“IS THIS AN EVEN-NUMBERED VISIT OR WAS PARTICIPANT’S LAST VISIT MVIS OR ABRV?”* If “YES,” participant will be asked to complete head injury questions.
8. Question C48: Revise to ask, *“In the past year, have you had a serious head injury...?”*
