

Psychosocial Measures (F26)
Version 10/02/13

1. Question A6: Change from *"Date of last study visit at which entire F26 was administered"* to *"Date form last administered."*
2. Section B, Introduction to Participant: Delete mention of study visit, as Section B asks about feelings in the past month, or currently. Sections F, G, and H will now be asked at every visit, so the date from Question A6 should be used wherever "(MONTH)" appears on form.
3. Delete PROMPT for Southern California sites that was after Section C.
4. Delete Question E4: *"Is form being administered at an odd-numbered visit?"* as Sections F, G, and H will now be asked at every visit.
5. Add Questions F1a through F1d: *"Who sexually abused you?"*
 - a. *"Was it your current partner?"*
 - b. *"Was it a previous partner?"*
 - c. *"Was it someone you know but was never your partner?"*
 - d. *"Was it a stranger?"*
6. Question F4: Change wording of question to ask *"Since your (MONTH) study visit, have you been forced to have sex with someone who you know is HIV positive?"*
7. Switch Sections G and H so that *"Physical Violence"* questions come after *"Sexual Abuse"* questions, to be followed by *"Domestic Violence"* questions.
8. Add Questions G1a through G1d: *"Who physically abused you?"*
 - a. *"Was it your current partner?"*
 - b. *"Was it a previous partner?"*
 - c. *"Was it someone you know but was never your partner?"*
 - d. *"Was it a stranger?"*
9. Delete old Questions G1a through G7a: *"When was the most recent time your partner (G1 – G7)? Was it..."*
10. Add new PROMPT after Question H8: *"If response to any of Questions H1 through H8 is "yes" ask Question H9. If responses to all of Questions H1 though H8 are "no" skip to Question H11."*
11. Add Question H9: *"Has it stopped?"*
12. Delete old Question G8: *"Since your (MONTH) study visit, have you talked with your current or previous partner about using a condom or other barrier method such as dental dams?"*
13. Delete old Question G10: *"Since your (MONTH) study visit, have you been afraid that your current or previous partner would threaten you or hurt you if you asked him/her to use a condom or other barrier method (such as dental dams)?"*
