

New Recruits Screening Form (SCR)

Versions: English form 05/22/13b; Spanish form 05/22/13c; QxQs 05/22/13a

1. Question B4: Change skip pattern for negative response to question. This will result in HIV-negative women being asked for “ever” history of TB infection.
2. Add PROMPT to Section B: “IF AN ENROLLED PARTICIPANT RESPONDS “YES” TO ANY OF QUESTIONS B5 THROUGH B25, COMPLETE AN ATC FOR EACH ILLNESS.” “Yes” responses to the AIDS-defining illnesses listed in Questions B5 through B25 will now result in the generation of an Ascertainment Tracking Checklist (ATC) via Apollo.
